

2/23/2000

Dear Mr. Levitt,

Consumers have the  
right to know what's in  
their bottled water! As a  
member of Center for Science  
in the Public Interest, I  
support the F.D.A.'s proposal  
that bottled water manufac-  
-turers be required to make  
available detailed reports  
of contaminants, just as  
public water utilities do.

All bottled water labels  
should also disclose where  
the water comes from!!

Thank you for your time  
& attention.

Sincerely, Elizabeth L.  
Anderson.
